International Journal of Computer and Electrical Engineering

CONTENTS

Volume 1 Number 3, August, 2009

Design and Simulation of a 2.4 GHz VCO with High Q MEMS Inductor and CMOS Varactor……..251
M. Rahimi, S.S. Jamuar , M. N. Hamidon, M. R. Ahmad , S. A. Mousavi and M. Bayat

Wireless LAN Security – Challenges and Solutions……258
Prof. rathnakar, DR. Vityanathan, and DR. Pethur raj

Desirable Security for Wireless Sensor Networks.……..266
Akbar Abbas

Energy Efficient Hybrid MAC Protocol for Cluster-Based Wireless Sensor Network……...…271
J. Vidhya, G. Kalpana and P. Dananjayan

Effect of Ground Conductivity on Radiation Pattern of a Dipole Antenna……..……..278
Md. Shahidul Islam, Md. Shohidul Islam and Md. Shah Alam

On Analytical Performance Measurement of Concurrency Control Protocols in DBMS…..……..284
Samir Kumar Ghosh, Md. Shohidul Islam and Md. Anisur Rahman

Controlling Free Riders in Peer to Peer Networks by Intelligent Mining……...……288
Ganesh Kumar. M and Arun Ram. K

Routing Algorithm using Mobile Agents and Genetic Algorithm…….……...……..293
F.A Cauvery N K, S.B. Dr K V Viswanatha

QoS Routing Using Genetic Algorithm (QOSGA).……..……..297
R. Leela and S. Selvakumar

Additional realizations of single-element-controlled oscillators using single ICCII-…….……..303
Abhirup Lahiri

Single CCTA–Based Universal Biquadratic Filters Employing Minimum Components……..…….307
Norbert Herencsar, Jaroslav Koton, and Kamil Vrba

Development of WAP Based Students Information System in Campus Environment……...……311
Mohd Nazri Ismail

Collision Avoidance for Airborne system using GPS data and RADAR data…….……...317
Prof. N.K. Srinath, and Dr. Ramakanth Kumar P

Micro-Controller Based LCCResonantConverter Analysis, Design,andSimulation Results……..323
S Selvaperumal, Dr.C Christober Asir Rajan

Frequency Domain Approach to De-Noise the CN Tower Lightning Current Derivative Signal and Its Parameters Calculations……..328

M.J. Islam and A.M. Hussein

Short Term Load Forecasting for Erbil Distribution System Using ANN and Wavelet Transform……335
A. A. Rasool, A. A. Fttah and I.B.Sadik

Efficient Algorithms for the Key Representation Auditing Scheme……..….……340
Asim A. Elshiekh, and P. D. D. Dominic

A Novel Approach to Distribution Planning in an Unstructured Environment…….…..…351
Sandeep Chakravorty and Smarajit Ghosh

A Hybrid Model of Distribution Planning……..…….…..……....……..…356
Sandeep Chakravorty and Smarajit Ghosh

Distributed Generation Planning Strategy with Load Models in Radial Distribution System……362
Deependra Singh, Devender Singh and K S Verma

Color Image Segmentation using Type-2 Fuzzy Sets…..……..…….....376
Saikat Maity and Jaya Sil

Quantitative Based Quality Evaluation for Pattern Based Bioinformatics Tools……...384
Jayanthi Manicassamy and P. Dhavachelvan
