International Journal of Computer and Electrical Engineering

CONTENTS

Volume 6, Number 4, August 2014

- **Motor and Electrical**

Wind-Induced Clearances Infringement of Overhead Power Lines…….....275
Ali I. El Gayar, Zulkurnain Abdul-Malek, and Ibtihal Fawzi El-Shami

Interleaved Boost DC-DC Converter Using Delta-Sigma Modulation Suitable for Renewable Energy Applications……283
Farag S. Alargt, Ahmed S. Ashur, Mohamed A. Shrud, and Ahmad H. Kharaz

Identification of the PEA Hysteresis Property Using a Minimum Variance Scheme…….....290
Aissa Rebai, Kamel Guesmi, and Boualem Hemici

Modeling and Analysis of Thermal Flexure Actuator Using COMSOL Multiphysics……..294
Girija M. Nimbal, S. V. Halse, R. S. Mathad, B. Jyoti, and Rafia Begum

- **Computer Vision**

A Method of Enhanced Corner Points Extraction Based on Circular Neighborhood……299
Zetao Jiang, Xing Yu, and Le Zhou

A Novel Watermarking Algorithm for Color Images Based on Discrete Wavelet Transform…….…..303
Anubhav Kumar and Anuradha

Pedestrian Recognition in Aerial Video Using Saliency and Multi-Features……...….307
Chunping Liu, Xu Fang, Xingbao Wang, and Shengrong Gong

An Efficient Approach for Text Extraction in Images and Video Frames Using Gabor Filter……..316
Anubhav Kumar

- **Networking and Navigation**

Fuzzy Control System for Autonomous Navigation and Parking of Thymio II Mobile Robots…….....…...321
Fatma Boufera, Fatima Debbat, Francesco Mondada, and M. Fay ̧al Khelfi

Opportunistic XOR-Coding Content Propagation in VANET……..…….....326
Hossein Malakooti, Ali Jalooli, Mohammad Reza Jabbarpour, Alireza Marefat, and Rafidah Md Noor

A ZHLS Based Geocasting for Broadcasting Messages in VANET……..….....……333
Wang-Cheol Song and Muhammad Shoaib

An Obstacle Detection and Guidance System for Mobility of Visually Impaired in Unfamiliar Indoor Environments……..337
Monther M. Al-Shehabi, Mustahsan Mir, Abdullah M. Ali, and Ahmed M. Ali

Performance Analysis of Paraxial Free Space Optical Interconnects System that Uses Bessel Beams and Micro-Lenses with Circular Apertures……..342
Nedal Al-Ababneh

- **Modeling and Simulation**

A Variant of COCOMO II for Improved Software Effort Estimation……...346
Ziyad T. Abdulmehdi, M. S. Saleem Basha, Mohamed Jameel, and P. Dhavachelvan

Numerical Analysis of the Dynamic Response of Slope under the Blasting Vibration Effect……..351
Iau Teh Wang

Feature Modeling and Automated Analysis for a Digital Television Product Family.……..….358
Gülseren Fedakar Gönül, Halit Oğuztüzün, and Ahmet Serkan Karataş

AutoTest: Automation to Test Tabular Data Quality…….……365
Mahmut Emin Çelik and İrfan Karagöz

The Effect of the Electrical Stimulation on Temperature Rise in the Retinal Tissue for Visual Prosthese...…369
Liang Huang, Enhui Chu, and Xing Zhang

Motor and Electrical
