International Journal of Computer and Electrical Engineering

Volume 7, Number 4, August 2015

- Dynamic Thermal Management for Homogeneous Embedded Multicore Processors: Thermal Modeling, System Environment, and Measurement Results** **223**
Axel Sikora, Sebouh Toumassian
- Moving Object Databases — Dynamic Flight Route Modification According to Weather Related Incidents** **232**
Konuralp Küçüközü, Perihan Pehlivanoglu
- Control of a Photovoltaic System Operating at Maximum Power Point and Constant Output Voltage under Different Atmospheric Conditions** **240**
Onur Deveci, Coşku Kasnakoglu
- Analysis of Clinical Percussion Signals Using Matching Pursuit** **248**
Jeffery Dech, Moinuddin Bhuiyan, Roman Gr. Maev
- Empirical Evaluation of Web Based Alias Extraction Techniques** **261**
P. Selvaperumal, A. Suruliandi, Dhiliphan Rajkumar
- Real-Time Automatic Selection of the Best Shot on Object in 4K Video Stream Based on Tracking Methods in Virtual Cropped Views** **275**
Dávid Cymbalák, OndrejKainz, František Jakab
