

Contents

International Journal of Computer and Electrical Engineering

Volume 7, Number 6, December 2015

- Design and Implementation of Construction System with High-Availability Application Service Environment** **357**
Yen-Jen Chen, An-Liang Lo
- Optimal Utilization of IPFC for Congestion Management Using Disparity Line Utilization Factor and Cuckoo Search Algorithm** **370**
Akanksha Mishra, G. V. Nagesh Kumar
- Soft-Error-Rate Adaptive Intervals for Low-Overhead Checkpoint Mechanism** **387**
Wentao Jia, Chunyuan Zhang
- System of Measurement and Analysis of Partial Discharges in Underground Power Cables** **399**
Rafael Guzmán Cabrera, Adrián González Parada, José Antonio Gordillo-Sosa, Joel Quintanilla Domínguez, Miguel Barrón Adame
- A Novel Speed Control Strategy for Five Phases Permanent Magnet Synchronous Motor with Linear Quadratic Regulator** **408**
N. Venkata Ramana, V. L. N. Sastry
- Computational Modeling of Common Failures in Electrical Induction Machines** **417**
Adrian Gonzalez-Parada, Rafael Guzmán-Cabrera, Miguel Torres-Cisneros, Ricard Bosch-Tous, Hector J. Estrada-García
- Real-Time Evaluation of nMPRA CPU Architecture Based on Multithreaded Execution** **424**
Ionel Zagan
